

BEFORE
THE PUBLIC SERVICE COMMISSION OF
SOUTH CAROLINA
DOCKET NO. 92-208-E - ORDER NO. 93-633 ✓
JULY 15, 1993

IN RE: Duke Power Company - Integrated)
 Resource Plan (IRP).) ORDER ON INTERIM
) DSM FILINGS
)

This matter comes before the Public Service Commission of South Carolina (the Commission) on the June 8, 1993 letter of Duke Power Company (Duke or the Company) requesting that the Commission consider two interim demand-side management (DSM) programs. Duke requests that the Commission make the necessary findings in accordance with Order No. 93-8, which will allow Duke to implement the DSM programs as filed.

The first interim program proposed by Duke is the High Efficiency Boarding Pilot Project. The purpose of this project, according to Duke, is to gain experience and determine the most cost effective program designed for encouraging manufacturers of half hosiery (socks) to convert to high efficiency equipment for boarding (ironing). According to Duke, the program will help the customer offset the cost of new efficient equipment versus either repairing inefficient boarding equipment or purchasing new inefficient boarding equipment. This project, according to Duke, will improve product quality and productivity, reduce customer

operating and energy costs, increase energy efficiency and reduce the need for new generation capacity.

The second interim program Duke proposes is the Residential HVAC Tune-Up Program. The purpose of this program, according to Duke, is to assist owners of existing all-electric single family residential structures in improving the efficiency of their central air conditioning or heat pump air distribution systems. This program will reduce, according to Duke, the need for new generation capacity, and help customers offset the expense of detecting and repairing excessive air leaks in duct systems, cleaning dirty HVAC system coils, and other repairs as specified in the Duke submission.

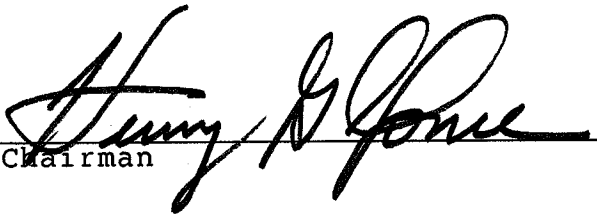

The Commission has examined both programs in light of the interim filing procedures set out by this Commission in our Order No. 93-8, and concludes that both programs are consistent with the procedures set forth in that Order. Duke therefore may proceed appropriately.

IT IS THEREFORE ORDERED THAT:

1. Both interim DSM filings from Duke are consistent with procedures set forth in Commission Order No. 93-8.
2. Duke may proceed accordingly.

3. That this Order shall remain in full force and effect until further Order of the Commission.

BY ORDER OF THE COMMISSION:

Chairman

ATTEST:

Executive Director
